Guided tour through the Kobleder factory

At Kobleder, we have been writing the success story of knitwear production in northern Austria since 1927. The creativity and expertise of this traditional craft go hand in hand, driven by the enthusiasm of our staff and the history that goes back generations.

At our home in the town of St. Martin im Innkreis, we produce and sell knitwear for men and women. Our boutique offers a genuine fashion experience: surrounded by humming and rattling knitting and sewing machines, you will find wool for hand knitting and colourful fabric cut-offs for crafts. Alongside clothing and knitted accessories such as capes, ponchos, blankets, cushions and woollen socks, we also knit technical fabrics. We are yet to discover our limits, and knit everything from pushchairs to airline seats.

We want to share our world with you, and therefore offer free guided tours for groups of 15 people or more around our entire workshop. And if you like our products you can be advised in our boutique and try on any items that catch your eye.

Tour participants will also each receive a 10 Euro gift voucher, which can be redeemed with any purchase of 50 Euros and above. The Inn region of northern Austria also has a wide range of interesting destinations for tourists, such as the baroque city of Schärding am Inn (which offers boat trips), Reichersberg Abbey and the town of Obernberg am Inn.

We look forward to your visit, and kindly request that you register in advance by calling +43 (0) 7751 7226 21. Please don't hesitate to get in touch if you require more information.

We hope to see you soon!
